

RWFM Job Board Sponsorship

JOB BOARD USE AND ANALYTICS

The Department of Rangeland, Wildlife and Fisheries Management (RWFM) has long supported a nation-wide job board geared towards connecting those interested in seeking and/or posting the latest job opportunities in the natural resource profession. Postings on the site include a range of positions from internships, full-time positions, temporary/seasonal opportunities, and graduate assistantships/fellowships. The site has gained a reputation for being a top source in the environmental field for job seekers and employers.

Advertising Opportunities

To support our students in their professional development, RWFM is offering **limited sponsorships** for companies looking to advertise on the job board. All sponsorship proceeds (100%) will support our student chapters of professional organizations (i.e., Society of Range Management, The Wildlife Society and American Fisheries Society) in travel expenses to state and national meetings and facilitate other extracurricular club activities.

Benefits of the RWFM job board sponsorship includes:

1. Company/organization advertisement via website exposure (i.e., logo with embedded company website link prominently displayed on the job board).
2. 100% tax-free donation in direct support of department undergraduate and graduate students.
